

## Fowler Road News

### From the Fowler Road Team

As we near the middle of term two, it has been great to see the students busy engaging in meaningful lessons and participating in a variety of learning experiences. Students have been working on the "Live Life Well" PDHPE unit which focuses on whole school strategies that foster healthy eating and physical activity to improve the health and wellbeing of students and the school community. Students develop the knowledge, understanding and skills by investigating nutrition and healthy eating choices and supplementing content learnt through developing and practicing Fundamental Movement Skills. This term, students in Years 5 to 8, have also engaged in the Leaders of Evolution "Student Leadership" course. Throughout the year, these students will participate in activities with a focus on developing their personal protective behaviours and skills in regards to resilience, emotional intelligence, perseverance, goal setting, self confidence, group participation and shared responsibility. Well done to all students for a great term so far!

Beti Neskoski – R/Assistant Principal

### Class in the SPOTLIGHT

Tutorial– Ms. Ruth and Ms. Jen

Tutorial have had a fantastic start to the term. All students have been busy with their schoolwork and completing all set assessments. The dedication to their studies is commendable. The highlight so far has been the arrival of our chickens for the Year 11 Agriculture Poultry Study. Students and our new GA Mark have had a busy time building the chicken coop and getting the pen ready for when they will be big enough to move across to Merrylands Primary School (MPS). We are definitely lucky to have MPS helping us out. We all went down to the pet store to purchase food and bedding which made for a nice outing. This week, Michael and Adam went to Parramatta River to check out the site for their Senior Geography Project. The students took photos and observed the site. They will be returning in the next couple of weeks to collect water samples for testing.
