Fowler Road News

From the Fowler Road School Team

It's hard to believe we have already reached the end of term two! We have had such a busy term at Fowler Road, with students across the school continuing to work hard on their learning and their mid-year assessment tasks. It's been great to see the excellent improvements students have made so far this year, especially with their Mathematics and English learning. Staff have continued to be impressed with the dedication students have shown to maintaining strict hygiene measures whilst at school. Students have been great with recognising the importance of this as we are well into the winter months. In week 10, our high school students will be hosting an end-of-term lunch for our school. Students will have the opportunity to use their Fowler Road money to purchase a sausage sizzle lunch and treats such as fairy bread. We wish all of our students and their families a safe and restful break from school and look forward to another fantastic term when we return.

Ms Amy Burge— R/Assistant Principal

Fowler Road School update

What a term it has been!
We would like to thank you for your patience, understanding and support throughout this term. We hope that you and your child have a safe and restful holiday break. We look forward to starting term 3 with a positive mindset and focus on being safe, smart and respectful learners.

20/07/2020

Beginning of Term 3

21/07/2020

Students return to school
on **Tuesday 21st of July
2020** to start term 3.

Class in the SPOTLIGHT

Class 2-Mr Josh, Ms Natalie, Mr Andrew, Mr Pita

Class 2 have been working particularly hard on their end of semester 1 assessment tasks for literacy and numeracy over the last couple of weeks. It has been great to see them putting in as much effort as possible and we look forward to sharing these results and progress with parents and carers through their Semester 1 reports in the coming week. Class 2 also began their Science and Technology unit in week 8. Our Stage 3 students are focusing on Earth's place in the solar system, our Stage 2 students are focusing on the Sun, Earth and Moon, and our Stage 1 students have been focusing on patterns of the Sun and the night sky. All students have contributed valuable responses and worked well in group situations in these lessons. Over the past few weeks, our class focus rule has been around respecting each other. It has been great to see some of our students working hard towards following this goal.
