Fowler Road News

From the Fowler Road School Team

It has been wonderful to see our class groups well and truly settled into class routines and programs as we near the middle of the term. Students are enjoying some new faces this term with some new school staff, as well as some external providers running engaging and meaningful activities in classes. We welcome two new NRL representatives to our team, Mr Johnny and Mr Matthew as they take on an SLSO and mentoring role. We also welcome a new teacher, Ms Dani who will be working alongside Mr Chris and the class team in Class 5. Unfortunately we farewell Mr Pita this week as he takes on a new role of Student Support Officer at Niland SSP. We have been very lucky to have Mr Pita on our team over the years and appreciate all of his hard work during this time. It was also great to see most of our K-12 students engage in a workshop focusing on relationship education. Interrelate staff ran the workshops which focused on aspects of personal safety and protective behaviours. This workshop complemented the work being done in classrooms as part of their Personal Development, Health and Physical Education content.

Just a reminder

The Department of Education has issued new guidelines around keeping safe during the Covid-19 Pandemic. As part of these guidelines, if students have any cold or flu symptoms (for example runny or blocked nose, sore throat, coughing, sneezing, fever etc.) they will need to remain at home. Students with these symptoms are not to return to school until they have had a Covid-19 test, with negative results. To return to school, a copy of the official test results from the clinic will need to be provided to our school.

Thank you for your support.

Class in the SPOTLIGHT

Class 4-Ms Jai, Ms Bec, Mr Jayden

Students are working hard this term to focus on their classroom, educational and safety goals. We have seen students trying their best to practice focused, respectful and safe behaviours. Students have also been demonstrating their prosocial skills with one another including sharing, turn-taking and polite language. Class 4 students have been enjoying the Learning Links program run by a Psychologist. These lessons aim to improve students' social and emotional understanding, and to give students opportunities to learn and practise new social/emotional skills. Keep up the great work class 4!
