**FROM THE FOWLER ROAD TEAM:**

We have, as always, been super busy at Fowler Road School recently! Our year 3, 5, 7, and 9 students have been working hard on their NAPLAN assessments, and we have been impressed with their dedication to demonstrating their best work.

In week 7, classes celebrated the International Day of Mathematics, with the theme Mathematics is Everywhere! It was great to see so many classes engaged in hands-on, explorative maths, including mathematics treasure hunts, exploring volume using different containers and liquid, looking at numbers and 2D shapes in real life and revisiting individual mathematics goals. Students enjoyed sharing their learning with their classmates and staff.

We have continued to focus on wellbeing strategies and practising using brain breaks, with the support of our student support officer (Mr Andrew) and the Life Skills Go! online platform. We are starting to hear about students beginning to use some of these strategies in their mainstream schools, which is fantastic!

Safe... Smart... Prepared

**CLASS IN THE SPOTLIGHT: Class 2**

What a fantastic start to the term we've had here in class two. The students have all started the year happy and ready to learn. In English we're currently revising our phonemes and sentence structure, with great results. Writing has also been of high priority in our classroom and the class has been producing some wonderful informative and imaginative texts. In Mathematics we've been focusing on group activities which explore additive strategies through games and problem solving. The students have been enjoying this more "hands on" approach and we appear to be progressing with our understanding of these concepts. We also continue to engage with our Life Skills Go! lessons which have also been successful and useful in identifying our emotions.
